

COVID-19 and HIV: Adapting community-based HIV services during a pandemic

28 May 2020

Ensuring access to HIV treatment in lockdown

Mehdi KARKOURI

ALCS – Coalition Plus

Challenges raised (overnight) by Covid-19

EDUCATIONAL
FUND 

- How to ensure continuity of services?
- How to adapt field work to comply with the new social norms and hygiene?
- How to ensure that prevention messages are soundly delivered?
- How to effectively continue to meet the needs of PLHIV and key populations while ensuring the safety of clients, volunteers and staff members?

Advocacy for innovation

- Governments, Health Authorities
- Police and Security agencies
- Donors
- Community

Adaption

- Information and education on preventive measures for COVID-19 disease
- Personal protective equipment
- Environmental and engineering controls (social distancing, beneficiaries flow, access control...)
- Working from home whenever feasible and possible

Action

- Allowing multi-month dispensation of ARVs for PLHIV
- Including dispensation of treatment for tourists blocked away from home
- Ensuring continuity of provision of other services (prevention, harm reduction) with adjustments
- Addressing disruptions in the supply chain of ARVs and protective equipment and stock outs
- Watchdogging for human rights infringements, intimate partner violence, stigma and discrimination
- Monitoring

Maroc : Des associations appellent le gouvernement à émettre une licence d'office sur les médicaments liés au traitement du Covid-19

© mai 16, 2020 à 10:15 #737

APA-Rabat (Maroc)
L'Association marocaine de lutte contre le sida (ALCS), l'Association marocaine des droits humains (AMDH) et l'ITPC-Mena ont appelé le gouvernement marocain à faire valoir son droit d'émettre une licence d'office sur tous les médicaments et technologies susceptibles de traiter le Covid-19.
