

AIDS 2026

Person-centred care (PCC) science roadmap for AIDS 2026

Version 2 July 2026

*All times local time Rio de Janeiro, Brazil (GMT-3)

LIVE SESSIONS (pre-conferences, satellites, symposia and oral abstract sessions)

Sunday, 26 July 2026

Preconference: HIV Treatment at a Crossroads: Community Power in the Age of Austerity and Algorithms

Organizer: ITPC; Room: 205

- Session 1: [Treatment at a Crossroads: Crisis, Power, and the State of the Movement](#), 08:00-09:00.
- Session 2: [HIV Treatment at a Crossroads: Community Power in the Age of Austerity and Algorithms - From Evidence to Power: Community Data, Affordability, and the Fight for Treatment Access](#), 09:30 - 11:00.
- Session 3: [Algorithms, Platforms, and Power: Building Community Governance for the Future](#), 11:30 - 13:00.

Preconference: Advancing HIV prevention science and access

Organizer: IAS – the International AIDS Society; Room 202

- Session 1: [Framing the future of HIV prevention: Progress, gaps, and the meaning of choice](#), 08:00 – 09:00
- Session 2: [Expanding the biomedical HIV prevention toolbox](#), 09:30 - 11:00
- Session 5: [Delivering prevention: From innovation to real-world choice](#), 15:30-17:00
- Session 6: [Session 6: Perspectives and priorities: What will change the course of the epidemic?](#), 17:30-19:00

AIDS 2026

Monday, 27 July 2026

- [From evidence to access: Implementation science to inform Lenacapavir scale-up](#), Satellite, 09:30-11:00, Room 204. Organized by The Gates Foundation, Unitaid and the World Health Organization.
- [Bridging Communities and Health Systems - Recognise, Integrate, Sustain: Unlocking the Power of Community Health Workers](#), Satellite, 09:30 - 11:00, Room 205. Organized by PATA.
- [AI on the frontlines of HIV service delivery: Design, delivery and data](#), Satellite, 09:30 - 11:00, Room 201. Organized by PSI and Wits Health Consortium.
- [No more silos: Integration as the pathway to resilient triple elimination and people-centered care](#), Satellite, 11:30 - 12:30, Room 201. Organized by PATH, Unitaid, International Community of Women living with HIV Eastern Africa, World Hepatitis Alliance, World Health Organization.
- **[Barriers and facilitators of person-centred care for key and vulnerable populations](#), **Satellite, 13:00-14:30, Room 203. Organized by the IAS.****
- [WHO clinical, service delivery and surveillance updates: new recommendations for HIV and sexually transmitted infections](#), Satellite, 15:00-16:30, Room 201. Organized by the World Health Organization.
- [Access where it counts: Expanding PrEP beyond clinics](#), Industry Satellite, 15:00-16:30, Room 203. Organized by MSD.
- [WHO clinical, service delivery and surveillance updates: new recommendations for HIV and sexually transmitted infections](#), Satellite, 15:00-16:30, Room 201. Organized by the World Health Organization.
- [Opening session](#). Official opening of AIDS 2026, 17:00-18:30, Room 101A.

Tuesday, 28 July 2026

- [Rethink. Rebuild. Rise.](#), Plenary Session, 08:30-10:00, Room 101A
 - Presentation: Delivering HIV services in a time of transition, Lloyd Mulenga, Ministry of Health, Zambia
- [From insecurity to inequity: Examining structural drivers of HIV outcomes](#), Oral abstract session, 10:30-11:30, Room 202.
 - [Early impact of funding withdrawal on HIV care and treatment programs in East Africa](#)
 - [Rethinking HIV prevention prioritization during funding crisis: evidence from rapid service declines among key populations in Nigeria](#)
- [Community-led monitoring in conservative and restrictive environments: Strategies for influence and integration](#), Symposium, 10:30-11:30, Room 204.
- [Bridging the implementation gap: Practical insights to strengthen HIV prevention access for key populations](#), Satellite, 12:00-13:00, Room 201. Organized by the IAS.

AIDS 2026

- [Person-centred HIV prevention for key and vulnerable populations in Latin America and the Caribbean](#), Satellite, 13:30 - 14:30, Room 103. Organized by the IAS.
- [Protecting what works: Sustainable, integrated, key population-sensitive models balancing community-led and facility-based services](#), Workshop, 14:30-16:30, Room 101C. Organized by the World Health Organization.
- [Demedicalizing PrEP](#), Symposium, 15:00-16:00, Room 202.
- [Maximizing impact with integrated STI testing](#), Oral abstract session, Room 201, 16:30-17:30
 - [Beyond barriers: delivering comprehensive cervical cancer screening and treatment for WLHIV via a remote static-outreach model in Mashonaland Central, Zimbabwe \(Oct 2023-Sep 2024\)](#)
 - [Feasibility and outcomes of an integrated high-risk human papillomavirus self-sampling and screen-and-treat model for cervical cancer prevention among fisherfolk women in Migori County, Kenya](#)
 - [Rising burden of congenital syphilis in South Africa: Trends from 2020-2023: Opportunities to optimize implementation of dual HIV/syphilis in pregnant women and their sexual partners](#)
 - [Integrated community-based HIV and viral hepatitis testing is effective in identifying undiagnosed infections in the general population in Pakistan](#)
- [Two steps back, three steps forward: Communities in the lead](#), Oral abstract session, 16:30-17:30, Room 101A
 - [Reduction of HIV stigma and discrimination among key populations in Nigeria through community-led interventions](#)
 - [Community-led approaches to reducing human rights-related barriers in HIV services in Indonesia](#)
 - [Rethink, rebuild, rise: strengthening HIV service quality and accountability through community-led monitoring in Lesotho](#)
- [Reimagining PrEP delivery for youth through peer leadership and community insights](#), Satellite, 18:00 - 19:30, Room 101C. Organized by Federal University of Bahia, State University of Bahia, Fiocruz-Bahia, University of São Paulo, University of Alabama at Birmingham.
- [Sharing cross-country implementation learning and introducing a structured demand generation playbook supporting effective introduction and uptake of LEN within a broader PrEP Choice framework](#), Satellite, 18:00-19:30, Room 203. Organized by Wits RHI, CHAI, PSI.
- [Living fully with HIV: A person-centered approach to health and well-being](#), Industry satellite, 18:00 - 19:30, Room 201. Organized by Gilead Sciences, Inc.

AIDS 2026

Wednesday, 29 July 2026

- AIDS 2026: Co-Chairs' Choice, 10:30-11:30, Room 101A
 - [Uptake, persistence and preference for long-acting injectable versus oral PrEP among Mobile Men in Uganda and South Africa: primary user effectiveness and implementation outcomes in the Mobile Men trial](#)
- **[The future of HIV service delivery is...simplification, self-care, integration, and AI in practice](#), Satellite, 12:00-13:00, Room 201. Organized by the IAS.**
- [Law, power and access: Overcoming barriers to HIV services](#), Oral abstract session, 15:00-16:00, Room 201
 - [Criminalization and HIV treatment continuity among people who use drugs in ten Latin American countries](#)
 - [Against the grain: from policing to partnership – community-led safety, rights and service access for sex workers in peri-urban mining communities near Bulawayo, Zimbabwe](#)
 - [Strengthening trans-led organizational resilience to anti-gender movements to safeguard HIV-related rights and access: Lessons from a global capacity-building and advocacy programme](#)
- [Chemsex everywhere: Interventions across contexts](#), Oral abstract session, 15:00-16:00, Room 203
 - [Addressing inter-institutional partnerships on combination HIV prevention for chemsex in São Paulo, Brazil](#)
 - [Meeting transgender-specific needs: Service acceptance and identified needs among Thai trans women engaging in substance use or chemsex \(iT-REX study\)](#)
 - [Improving HIV retention among men who have sex with men who engage in chemsex in South African townships: evidence from the EJAF Chemsex Program community model](#)
 - [Breaking the silence: introducing chemsex harm reduction in criminalised Asian settings](#)
- [HIV service delivery in conflict, humanitarian and development settings](#), Oral abstract session, 15:00-16:00, Room 101A
 - [Sustaining HIV care and support in Ukraine: a model of integrated, state-coordinated community-based services](#)
 - [Improving the HIV care cascade among Venezuelan migrants in Colombia through a rights-based model, community-based testing and assisted partner notification](#)
 - [Adapting HIV service delivery in Myanmar: lessons learned from community-led interventions during public health emergencies](#)
 - [Retention breaks HIV prevention: sustaining survivor peer educators for trans women living with HIV in Nigeria's safe houses and IDP camps](#)

AIDS 2026

- [When stigmas intersect: Advancing HIV stigma research and practice](#), Oral abstract session, 16:30-17:30, Room 204
 - [Evaluating an intervention to reduce stigma towards key populations among healthcare workers in Mombasa, Kenya](#)
 - [Persistent internalised HIV stigma among persons living with HIV in Jamaica and implications for engagement in care in the context of shifting funding priorities](#)

Thursday, 30 July 2026

- [People in crisis: Conflict, migration and sustaining HIV care](#), Oral abstract session, 10:30-11:30, Room 103
 - [Community feedback mechanisms \(CFM\) to protect people who inject drugs in conflict-affected Myanmar: rights-based, peer-led model](#)
- [Practice and pathways: Integrated testing and screening as entry points to HIV care](#), Oral abstract session, 10:30-11:30, Room 204
 - [Implementing community-based hepatitis C screening for key populations in the absence of established service infrastructure: a demonstration study from Singapore](#)
 - [A festival-based, CHW-led testing and navigation model in rural Appalachia: reach, screening gaps, and linkage outcomes at Healing Appalachia 2025](#)
 - [Integrating STI self-testing as a scalable entry point to HIV prevention among adolescent girls and young women in Dar es Salaam: evidence from a community-led advocacy initiative](#)
 - [Integrating HIV testing, ART initiation and cervical cancer screening in primary care: programmatic results from Mozambique](#)
 - [From two community hubs to every Thai province: scaling a sex worker-led HIV self-testing distribution model across Thailand](#)
- [Skills Lab: Community-led monitoring](#), Workshop, 12:00-13:30, Room 101C.
- [Status-neutral practice: Interventions for young people](#), Oral abstract session, 15:00-16:00, Room 203.
 - [Leveraging youth champions to enhance PrEP uptake among clients substantially vulnerable to HIV at South Lunzu health center, Blantyre, Malawi: a quality improvement initiative](#), Baila et al
 - [Empowering gen Z: peer-led digital campaign for HIV prevention and mental health among Thai youth](#), Manojai et al
 - [Integrating U=U into HIV care for adolescents and young adults in Cape Town, South Africa: a randomized trial](#), Sineke et al

AIDS 2026

- [Prevention in practice: Real-world advances in HIV prevention delivery](#), Oral abstract session, 16:30-17:30, Room 201
 - [Real-world implementation of long-acting lenacapavir for HIV PrEP in Zambia: early programmatic outcomes from a phased rollout](#)
 - [Boosting youth uptake of HIV self-testing and pre-exposure prophylaxis via peer-led alternative access points in Greater Metro Manila, Philippines](#)
 - [Patterns of PrEP and PEP use through automated dispensing machines in São Paulo, Brazil: modality, motivations, and gender differences](#)
- [Reimagining HIV prevention for youth: Integrating creativity and community action](#), Oral abstract session, 16:30-17:30, Room 204
 - [Mobile health for HIV prevention agency among Nigerian adolescent girls and young women: behavioral pathways from system quality to health capability](#)
 - [Strategies to improve HIV prevention service uptake among young women who sell sex in sub-Saharan Africa: a scoping review](#)
 - [From play to prevention: reaching rural adolescents through a youth-led and play-based HIV prevention package in Northern and Muchinga provinces, Zambia](#)
 - [Effects of an arts-based intervention to increase HIV knowledge and reduce HIV-related stigma among young people attending school in Northern Uganda: results of a stepped-wedge cluster-randomized trial](#)
 - [Rewiring risk: a cognitive dissonance-based peer-led intervention for HIV prevention behaviour change among young women in Wassa IDP camp in Abuja, Nigeria](#)

Friday, 31 July 2026

- [Syndemics in practice: Supporting people living with HIV and other conditions](#), Oral abstract session, 12:00-13:00, Room 103
 - [Integrated community-based care versus facility-based integrated care for people living with HIV, diabetes or hypertension in sub-Saharan Africa \(INTE-COMM\): a multi-country cluster-randomised trial](#)
 - [Community-led one-stop-shop for integrated communicable disease and NCD diagnostics and monitoring: digital case management for key populations in Moldova](#)
 - [Hearing the voice of the people: impact of integration of hypertension care into HIV clinics in Botswana on improving experiential quality](#)
 - [Challenges in integrating cervical cancer and HIV services: experiences of women accessing care in Nairobi, Kenya](#)

AIDS 2026

- [Practice and partnerships: Community roles in driving HIV service delivery](#), Oral abstract session, 13:30-14:30, Room 203
 - [Adaptive, safety-centered HIV service delivery for men who have sex with men in Ghana amid escalating anti-LGBTQ+ pressures: a pre-post evaluation of case-finding and linkage outcomes](#)
 - [A beautiful choice: transgender-led differentiated HIV testing and prevention through beauty salon owners and beauticians in the Philippines](#)
 - [Engaging communities through participatory mapping to strengthen responsive HIV programming in Malawi: lessons from the RESPOND project](#)
 - [Impact of community-based interventions on viral load among adolescents and young adults living with HIV](#)
 - [Transforming prevention landscapes: community-led implementation of lenacapavir \(LEN\) in Nairobi](#)
- [Rapporteur report-back session](#), 14:45-16:00, Room 101A
- [Closing session](#), 16:00-17:00, Room 101A.

POSTER EXHIBITION

The posters are listed by track within the content categories of HIV testing, prevention, treatment, integration of other health needs, quality improvement and other, and by day of presentation.

HIV testing

Tuesday, 28 July 2026

TRACK E

- [Pilot randomized trial of a venue-based HIV testing plus digital linkage-to-services intervention to support engagement in the status-neutral HIV continuum among men who have sex with men in Peru](#)
- [Co-creating HIV testing services with communities; A participatory action to strengthen community-led HTS in pregnant women implementation in Katsina State, Nigeria](#)
- [Community peer navigators in barber shops to increase HIV self-testing uptake among young men in Biakoye District, Ghana](#)
- [Segmentation for impact: peer-driven, digitally supported HIV self-testing to reach hidden MSM subgroups in Ghana](#)
- [Decentralising HIV testing through peer-led rapid and assisted self-testing in Sri Lanka](#)
- [Gamifying HIV prevention: TestD-Health, a community-led digital platform to build behaviour change and expand HIV and STI testing among key populations in Thailand](#)
- [Scaling up HIV testing through community leadership: evidence from a One Stop Centre model for transgender populations in India](#)

AIDS 2026

Wednesday, 29 July 2026

TRACK E

- [Predictors of choice between HIV self-testing with or without PrEP: a program evaluation of person-centered HIV prevention services of the save and improve lives\(SAIL\)-teleprep program in the Philippines](#)
- [Digital frontiers: leveraging social media for high-yield HIV case finding among previously unreached female sex workers in Ghana](#)
- [Implementation outcomes and preliminary effectiveness of a community-led HIV self-testing intervention for adolescent girls and young women in rural Northern Uganda: a quasi-experimental study](#)
- ["I missed my appointment, but I have peace of mind": HIV self-testing in the context of community-based delivery of long-acting HIV pre-exposure prophylaxis in rural South Africa](#)
- [Community-led HIV testing with high-yield outcomes: lessons learned from a federal service delivery model in Argentina](#)

TRACK F

- [Turning play into pathways: fun family days as a catalyst for family-centred HIV testing and care in South Africa](#)

Thursday, 30 July 2026

TRACK E

- [HIV self-testing works - but context matters: social support and user experience shape future uptake in the Dominican Republic](#)
- [Beyond the hotspot: achieving a 22% HIV positivity yield through peer-led, differentiated outreach segmentation among hidden MSM in Ghana](#)

TRACK F

- [Barriers and facilitators of HIV testing in men who have sex with men in countries where same-sex sexual acts are illegal: a mixed methods systematic review](#)

AIDS 2026

HIV prevention

Tuesday, 28 July 2026

TRACK E

- [Acceptability of peer-delivered systems navigation for HIV pre-exposure prophylaxis among heterosexual men and other key-informants in Malawi – results from HPTN 112](#)
- [Knowledge, attitudes and use of pre-exposure prophylaxis \(PrEP\) among sex workers](#)
- [High demand and moderate retention of long-acting injectable Cabotegravir \(CAB-LA\) offered as an alternative HIV pre-exposure prophylaxis \(PrEP\) option via mobile clinics in female sex work hotspots, Malawi](#)
- [The impact of online self-administered daily PrEP screening on PrEP retention among Thai clients at the Thai Red Cross AIDS and Infectious Diseases Research Centre \(Anonymous Clinic\), 2022–2025](#)
- [Community-led injectable HIV prevention for AGYW in Nakivale refugee settlement, Southwestern Uganda: decentralized, peer-supported CAB-LA delivery restores coverage amid funding instability](#)
- [Nursing at the frontline: nurse-led implementation of long-acting injectable PrEP \(CAB-LA\) in a community-based adolescent service in Brazil](#)
- [Formative research to inform the design of a cluster randomized controlled trial to improve linkage to PrEP following HIV self-testing among motorcycle taxi \(boda boda\) operators in Arusha, Tanzania](#)
- [Improving uptake of HIV prevention services, including PrEP, among pregnant and breastfeeding adolescents and young mothers in seven high HIV-burden districts in Zambia using the Mentor Mother peer model](#)
- [Client experience and satisfaction of publicly-funded oral HIV pre-exposure prophylaxis in Taiwan: a multi-center surveillance](#)

TRACK F

- [Community-led continuity of HIV prevention during the polycrisis in Ukraine](#)

Wednesday, 29 July 2026

TRACK E

- [Automated dispensing machines for HIV prevention tools: early implementation experience with PrEP, PEP and self-testing in São Paulo, Brazil](#)
- [Scaling up HIV prevention: community-led, decentralized, and differentiated interventions for PWID in India](#)
- [Peer-driven delivery of long-acting injectable cabotegravir for key populations: preliminary findings from a PrEP choice implementation study in Beira, Mozambique](#)

AIDS 2026

TRACK F

- [Collaborative approaches to improving access to HIV prevention and healthcare for people in detention settings](#)
- [Protecting choice under criminalisation: early lessons from Uganda national trans forum on introducing lenacapavir for trans and gender diverse communities](#)
- [Empowering choice in HIV prevention: early engagement lessons from the PrEP ring in Botswana](#)

Thursday, 30 July 2026

TRACK E

- [Person-centered community approaches linked to reduced rates of mother-to-child HIV transmission in Angola: lessons from differentiated PMTCT services](#)
- [The Pharmacy-based HIV prevention and Sexual Health Engagement Services \(PHASES\) project: implementation strategies and mechanisms for pharmacist-delivered HIV/STI prevention care in Philadelphia, USA](#)
- ["They advise you, they don't force you": peer-navigated pathways to prevention - implementation challenges and opportunities for expanding PrEP options](#)

TRACK F

- ["Should We Continue to Hide?" Quantifying the impact of anti-LGBTQ+ legislation on HIV service uptake among MSM in Northern Ghana](#)
- [Transgender-led, disability-inclusive policing to improve HIV prevention knowledge and service uptake in marginalized communities in Pakistan](#)
- [Pharmacy-led HIV prevention in humanitarian crises: operational lessons from mobile PrEP delivery across six Nigerian IDP camps \(2023-2024\)](#)

HIV treatment

Tuesday, 28 July 2026

TRACK E

- [Enhancing person-centered care for Kaposi sarcoma: a qualitative exploration of experiences and perceptions of care among patients in Kenya and Uganda](#)
- [Sustaining youth-centred HIV services amid donor funding cuts: the Kijana Imara project, a youth-led, system-integrated model from Kigoma, Tanzania](#)
- [Community-led differentiated HIV care in crisis-affected rural Bamenda: a mixed-methods implementation study](#)
- [Rapid telehealth-enabled antiretroviral re-initiation for re-linkage to HIV care: interim findings from the multisite ACCELERATE study](#)

AIDS 2026

TRACK F

- [From evidence to action: using stigma research and local-language SRHR tools to influence rights-based HIV policy and practice in Zimbabwe](#)

Wednesday, 29 July 2026

TRACK E

- ["We are all one": engagement and experiences with a multilevel intervention to promote viral suppression and wellbeing among transgender women in the Dominican Republic](#)
- [Client-provider interactions, cyclical interruptions in treatment, and the role of positive relationship building in treatment adherence and retention among men living with HIV in Malawi: a qualitative study](#)

TRACK F

- [Being heard makes all the difference: women's lived experience as evidence for improving HIV care](#)

Thursday, 30 July 2026

TRACK E

- [Effect heterogeneity for person-centred care intervention on retention in HIV care in Zambia: using CATE to understand who benefits most](#)
- [Perspectives of people living with HIV on the integration of antiretroviral therapy \(ART\) services into outpatient department \(OPD\) care at Inomo Health Centre III, Kwanja District, Northern Uganda](#)
- [The effect of psychosocial supports on HIV care retention among people living with HIV \(PLHIV\) in Edo State, Nigeria](#)

TRACK F

- [Double stigma: HIV and substance use - results of a person-centered approach \(PCA\)](#)

AIDS 2026

Integration of other health needs

Tuesday, 28 July 2026

TRACK E

- [Optimizing HIV case finding through primary health center integration and camp-based multi-disease screening in hard-to-reach communities of Awka North Local Government Area, Anambra State, Nigeria](#)
- [Integrating HIV and non-communicable disease services in primary healthcare: impact on diabetes mellitus screening, care, and reporting among people living with HIV in Uganda](#)
- [Feasibility and preliminary effectiveness of a multicomponent intervention for blood pressure screening among people living with HIV at community pharmacies in Kampala, Uganda: a hybrid type 1 mixed-methods study](#)
- [Preferences for community-based sexually transmitted infection screening in a high HIV incidence setting in South Africa: a discrete choice experiment](#)
- [Integrating mental health in a hostile climate: a longitudinal analysis of PrEP retention among LGBTQ+ individuals in rural Kayunga, Uganda \(2024–2025\)](#)
- [Integrating community pharmacies into HIV–NCD chronic care: digital remote people monitoring in Lagos, Nigeria](#)
- [Conversations at the point of care: a qualitative study of provider–healthcare client interactions and tobacco cessation in HIV clinics Kisumu County, Western Kenya](#)
- [Strengthening mental health and psychosocial support \(MHPSS\) to the key populations \(KPs\) through community mental health \(MH\) service delivery: lessons from Anambra state](#)
- [Mental health and psychosocial support as a key component of sexual and reproductive health programs for women who use and inject drugs in southern Nigeria](#)
- [Beyond depression: delivering integrated community-based care within microfinance groups significantly reduces anxiety among persons living with HIV compared to economic support alone](#)
- [Community-led, layered health services drive high ART initiation, PrEP uptake and TB treatment success among sex workers in rural South Africa](#)
- [Rebuilding person-centered HIV/STI care for historically marginalized populations: reflection on optimized sexual health service models for indigenous populations in Eastern Taiwan](#)

TRACK F

- [Bridging policy and practice: implementing the MAF-TB framework for integrated HIV and TB services in workplaces and high-risk communities](#)

AIDS 2026

Wednesday, 29 July 2026

TRACK E

- [Integration of HIV services with other services, including sexual and reproductive health services](#)
- [Project COMRED: implementation outcomes and lessons from a community-led harm reduction model for chemsex in Malaysia](#)
- [Preferences for HIV and STI prevention services in the doxycycline post-exposure prophylaxis era among transgender population in Taiwan: a discrete choice experiment](#)
- [Integrating mental health into HIV care for high risk communities in Uganda: lessons from the safe healthy empowered and protected \(SHEP\) project](#)
- [Integration vs. equity: implications of HIV service integration for Ugandan adolescents and youth](#)
- [Perceived implementation factors of SALUD MÓVIL: an integrated bilingual telehealth and mobile phlebotomy model for Latino MSM in the U.S. South](#)
- [Integrating HIV prevention and sexual and reproductive health for women and girls: a scoping review of current models and their implementation](#)
- [Co-producing a psychosocial harm-reduction intervention in prison settings: development and piloting of the HOPE programme in Kyrgyzstan](#)
- [A decentralized, community-integrated model achieves a tenfold increase in cervical cancer screening among women living with HIV in Bayelsa State, Nigeria](#)
- [Integrating HIV services into primary health care in South Africa: opportunities and challenges post-funding cuts](#)
- [A community-led social enterprise clinic to improve affordable HIV and STI services and long-term sustainability in Thailand](#)

Thursday, 30 July 2026

TRACK E

- [Defining the non-negotiables: PLHIV-led minimum standards for rights-based, person-centered integration to safeguard HIV treatment access, strengthen PLHIV leadership, and ensure sustainable health systems](#)
- [Integrating harm reduction services into public hospitals: lessons from Bangladesh's strategic shift in HIV prevention for PWID](#)
- [Healthcare discrimination, service environment, and uptake of STI and viral hepatitis screening in Nigeria: evidence from National Community-Led Monitoring](#)

TRACK F

- [Community first: how peer-led outreach keeps LGBTQI people connected to HIV care, mental health support, and prevention in Blantyre and Mzuzu, Malawi](#)

AIDS 2026

- [Self-care challenges in the sexualized use of psychoactive substances among people living with HIV: a peer-led harm reduction model](#)

Quality improvement and other

Tuesday, 28 July 2026

TRACK E

- [When donors withdraw: how a key-population outreach grassroots organization transitioned to a self-reliant HIV clinic in Uganda](#)
- [Leaving the Amazon behind: structural exclusion of Indigenous and Trans populations from PrEP access in Northern Brazil](#)
- [Integrating key population HIV Services into public health facilities for sustainable access to health services: lessons from early programmatic effects in Migori, Western Kenya](#)
- [The effect of facility-led continuous quality improvement \(CQI\) projects on HIV services in Cameroon's Far North region, 2024-2025](#)
- [A mixed-methods assessment of the quality of post-violence clinical care services in Mozambique, 2023](#)
- [Integrating community-led monitoring into quality improvement to strengthen maternal HIV re-testing for PMTCT in rural Uganda](#)
- [Disparities in health satisfaction and usual source of care among sexual and gender-diverse adolescents in Brazil](#)

TRACK F

- [Centring Indigenous women living with HIV: Community-led sexual and reproductive health and rights advocacy across seven countries](#)
- [From informal care to protected profession: lessons learned from formalizing HIV community health workers in Indonesia](#)
- [Assessing the effectiveness of Sierra Leone's radical inclusion policy in expanding equitable HIV prevention, treatment, and retention services for female sex workers and men who have sex with men](#)

Wednesday, 29 July 2026

TRACK E

- [Reducing in-hospital mortality through implementation of a specialized inpatient HIV service in southern Brazil](#)
- [Virtual supervision-based quality improvement among PWID service centers in Bangladesh](#)
- [Institutionalizing community-led HIV and STI services: a national health system reform to scale access in Thailand](#)

AIDS 2026

- [Social determinants, social protection and HIV: evidence from a community-based experience with LGBTIQ+ and migrant populations](#)
- [Pilot study of implementation and preliminary effectiveness of integration of stigma and discrimination reduction content into student health worker curricula in Tanzania: the expanded total facility approach](#)
- [Strengthening HIV care for older women through community-led support models in Kenya: implementation lessons from Haki group](#)
- [From song to social action: community-led tuberculosis case finding inspired by the End TB music campaign in South Africa](#)
- [Rising above misinformation: safety-first, quality-assured AI for HIV and sexual and reproductive health self-care](#)
- [Better access to HIV and related services in EECA prisons based on to CLM data](#)
- [Embedding equity-centered implementation science into community-based HIV programming and evaluation](#)
- [Sustaining HIV services amid funding volatility: a community-led intermediary funding model with global relevance from the Gilead COMPASS Initiative®](#)
- [Harnessing community leadership to introduce Fiji's first peer-led counseling initiative for people living with HIV: concept, fundraising, and launch](#)

TRACK F

- [Criminalization, stigma, and barriers to justice: reimagining rights-based HIV responses for rural LGBTIQ+ communities in Nigeria's hostile landscape](#)
- [Participatory assessment of sexualized psychoactive substance use and HIV-related needs among trans women in Mexico to inform the integrated care and harm reduction guidelines for chemsex in Latin America](#)
- [From exclusion to inclusion: developing evidence-based guidance to include people living with HIV in non-HIV clinical trials through a community-lead and multi-stakeholder process](#)
- [The CHAMPION model in community-led monitoring implementation: communities for the community](#)
- [Effects of breaking barriers in advancing quality HIV care cascade through community engagement and human rights intervention in Oforikrom, Ashanti region, Ghana](#)
- [Understanding HIV service access preferences for people who use drugs in Dar es Salaam: findings from community-led monitoring](#)

Thursday, 30 July 2026

TRACK D

- [Healthcare workers' perspectives on person-centred care: baseline findings from KwaZulu-Natal, South Africa](#)

AIDS 2026

TRACK E

- [Perspectives of people living with HIV in Europe on their clinical consultations: an equity analysis](#)
- [Empowering young women: building safe environments and strengthening gender based violence prevention on the UNICEF- supported adolescent and young mothers project across seven districts of Zambia](#)

TRACK F

- [Advancing HIV care for court-involved women through integrated reentry services](#)
- [Words matter: the impact of stigmatizing language in the healthcare setting among cisgender and transgender women and non-binary adults living with HIV in the US](#)

E-POSTERS

The e-posters are listed by track within the content categories of HIV testing, prevention, treatment, integration of other health needs and other.

HIV testing

TRACK E

- [Scaling community-led digital HIV service delivery through Love2Test: implementation lessons from a national online booking platform in Thailand](#)
- [HIV self-testing: analysis of acceptability and feasibility of assisted and unassisted models among key populations](#)

HIV prevention

TRACK E

- [AI-based mHealth intervention for PrEP uptake among South African university students: design and development of the campus digital clinic chatbot](#)
- [Addressing HIV vulnerability among young women aged 15-24 through trauma-informed GBV interventions in urban informal settlements of Kampala, Uganda](#)
- [Integrating DoxyPEP into PrEP services through telehealth: a municipal implementation model in southern Brazil](#)
- [Barriers and facilitators to HIV pre-exposure prophylaxis \(PrEP\) uptake among key populations in Georgia: a mixed-methods study](#)

TRACK F

- [Structural determinants of HIV vulnerability: a multi-country analysis of labour rights and health exclusion among South Asian migrant workers](#)

AIDS 2026

HIV treatment

TRACK E

- [Evaluating the effectiveness of health workers' strategies used in re-engaging women living with HIV with missed appointments post tropical cyclone Freddy in Mulanje, Malawi: a retrospective analysis](#)
- [Resilience of antiretroviral therapy \(ART\) clubs at City Of Cape Town \(CCT\) clinics in South Africa: the evolution of club care and impact on outcomes](#)
- [Effect of a telephone-based psychoeducational intervention on antiretroviral therapy adherence and socio-occupational functioning among people living with HIV in selected hospitals in Southwest Nigeria](#)
